

FILLABLE RECORD / PAGE 1 OF 3

Record the evidence. Do not pre-fill the conclusion.

This form records observations and supporting files. It does not certify authenticity, safety or roadworthiness. Type into the fields and save a new copy; PDF viewer support varies.

Published reference only: chassis 12871136 • engine 616/39 / 1285453 • transmission 902/02. Observation fields are deliberately blank.

Observer / organisation

Inspection date / location

Chassis identifier observed (exact transcription)

Engine type observed

Engine serial observed

Transmission type observed

Transmission serial observed

Photograph / document file references and context

Uncertainty, access limits or discrepancies

FILLABLE RECORD / PAGE 2 OF 3

Present configuration. Separate from delivery record.

Photographs should capture the fitted component and its context. The options on the 2016 certificate do not pre-populate this present-day inventory.

Steering wheel / material observed

Wheel type / markings observed

Tyre make / exact sidewall size

Tyre date codes / evidence reference

Rear window type / attachment

Roof panel / underside / marks

Carburettor identification observed

Generator / electrical identification

Paint / trim marks or documentary evidence

Restoration history / invoices / replaced assemblies

Photograph references, open questions and component provenance

FILLABLE RECORD / PAGE 3 OF 3

Close the loop. Attach source and status.

Enter values only when obtained through a suitable, safe professional process. This is not a road-test or workshop procedure.

Effective rolling circumference / m

Circumference source / method reference

Gear ratios / source document

Final drive / tooth-count evidence

Comparison with the published reference (do not infer faults from one mismatch)

Questions for the specialist / follow-up action

Reviewed by

Review date / record version

Conclusion status / limitations / attachments

Suggested status terms: DOCUMENTED / OBSERVED / CALCULATED / NOT VERIFIED. Preserve older versions and original files. Do not treat an unchecked or empty field as a confirmed match.

Published certificate used only as a comparison record
